Dear families and guardians,

你们好(Ni Hao)! Welcome to Wang Laoshi’s classroom!

My name is Manling Wang, Wang Laoshi, which means Ms. Wang. It is my pleasure to continue my teaching career in Lakes International Language Academy.

In 2014, shortly after I immigrated to the United States, I started to work in the School District of New Richmond, Wisconsin and to support the students learning in the classrooms who are from Kindergarten to 12th grades. From 2017 to 2020, I have been a 5th grade classroom teacher in Jie Ming Mandarin Immersion Academy. Before I immigrated to US, my jobs were in multinational corporations, like General Motors and IKEA in Human Resource Development and Management in Shanghai, China.

In 1996, I graduated from Northeastern University in Shenyang in China, and then received my Master’s Degree in Human Resource Development from the University of Twente, located in Holland.

I love being with children and am passionate about supporting young children learning and growing, because my students always can inspire and encourage me to be a better person.

Kindergarten is the beginning of a student’s learning journey. I would create a fun and supportive classroom atmosphere to engage the new pupils to the learning activities and to foster their growing and learning. And I cannot wait to meet you in the coming school year! Please email me at manling.wang@mylila.org if you have any questions.

Have a great rest of summer and see you soon!

Sincerely,

Wang Laoshi
